SUMMARY

Dedicated Software Developer experienced in front-end and full-stack development, skilled in React.js, React Native, Next.js, JavaScript, HTML, CSS, Tailwind CSS, and Bootstrap. Currently working with React.js, Python, and Oracle Database at Al Rawabi Group of Companies, developing responsive and user-friendly web and mobile applications.

EXPERIENCE

Al Rawabi Group of Companies

Jan. 2026 – Present

Software Developer

Qatar

- Developed and maintained both front-end and back-end functionalities for business applications and internal systems.
- Built responsive and user-friendly interfaces using HTML, CSS, JavaScript, **React**, and modern UI practices.
- Worked on back-end development using **Python** and **Oracle** Database for secure data management and business operations.
- Developed modules for **inventory management**, **billing**, **reporting**, and **workflow automation**.
- Collaborated with cross-functional teams to gather requirements and deliver scalable software solutions.
- Optimized application performance and ensured smooth integration between **front-end** and **back-end** systems.

Deft Innovations

July. 2025 – Jan. 2026

Web Developer

Nilambur

- Developed and maintained responsive websites using **HTML**, **CSS**, **JavaScript** and **WordPress**. Built modern, responsive, and visually appealing interfaces using **Next.js** and Tailwind CSS.
- Managed and enhanced Ayurvedic websites and administrative, ensuring smooth functionality and user-friendly interfaces.
- Designed and developed static web pages with **responsive layouts** across desktop, **tablet**, and **mobile** devices.
- Converted design concepts and requirements into clean, responsive, and **user-friendly** web interfaces.

SpineCodes

Feb. 2024 – Feb. 2025

Web Developer

Malappuram

- Developed responsive web applications using **React.js**, JavaScript, HTML, CSS, and Bootstrap.
- Built and maintained e-commerce websites with user-friendly interfaces and smooth shopping experiences.
- Developed static and dynamic websites based on client requirements.
- Integrated **Firebase** for backend services, database management, authentication, and data handling.
- Worked on website functionality, **debugging**, **performance improvements**, and maintenance.

SKILLS

- **React.js**, **Next.js**, React Native, Flutter, JavaScript, TypeScript, HTML, CSS, Tailwind CSS, Sass, UI Design, UX Engineering, Redux, Zustand, TanStack, Framer Motion, Material UI, Bootstrap, Python, Firebase, SQL, Oracle Database, PostgreSQL, MySQL, Git, GitHub, Claude, Codex.

PROJECTS

POS System for Wholesale Business

- Developed a complete POS system for wholesale food business operations to manage daily sales and transactions efficiently.
- Built responsive and user-friendly front-end interfaces using React, HTML, CSS, and JavaScript.
- Worked on back-end development using **Python** and **Oracle** Database for secure **data handling** and **business logic**.
- Implemented billing and invoice generation features to simplify customer checkout processes.
- Developed inventory management modules to **track stock availability**, **product purchases**, and low-stock alerts.
- Created customer management functionality to store customer details, **purchase history**, and **credit** information.
- Added sales **tracking** and **reporting** features to monitor **daily**, **weekly**, and monthly **business** performance.
- Contributed to an **8% increase in sales** through improved billing efficiency and streamlined POS workflows.
- Optimized application performance to ensure smooth operation during high-volume business transactions.

Wholesale Billing & Management System

- Designed and developed a wholesale billing application using **React.js** for the frontend and **Python** Flask for backend development.
- Managed and integrated Oracle Database for efficient data storage, retrieval, and transaction management.
- Developed a **Super Admin** dashboard with **Role-Based Access Control (RBAC)** to manage users and system permissions.
- Built a comprehensive billing window with features such as product **selection**, **discounts**, bill **hold**, bill **retrieval**, and bill **reversal**.
- Implemented billing workflows and transaction management to support smooth and efficient daily operations.
- Developed responsive and user-friendly dashboards for monitoring and managing business activities.
- Integrated **frontend**, **backend** APIs, and database operations to ensure reliable data flow across the application.
- Worked on validation, **error handling**, **debugging**, and performance improvements to ensure application stability.

Hiring Portal for Shops

- Developed a web-based hiring portal that connects shops with candidates and streamlines the employee recruitment process.
- Implemented a shop/user module where users can create and submit hiring requests based on their requirements and criteria.
- Developed an Operations Manager (**OM**) dashboard to **review**, **validate**, **approve**, and manage hiring requests.
- Created an HR dashboard to evaluate candidates based on defined criteria and hiring requirements.
- Implemented the workflow for **candidate selection**, **shop assignment**, and request closure after successful hiring.
- Developed dashboards for HR and OM teams to monitor recruitment activities and track request status.
- Implemented internationalization (**i18n**) with **RTL** and **LTR** language support to provide a localized and accessible experience across different languages.
- Implemented reporting features to generate and review recruitment and hiring-related **reports**.
- Optimized the hiring workflow, reducing overall hiring request processing time by approximately **90%** and enabling faster HR recruitment operations.

EDUCATION

University of Calicut

Bachelor of Computer Application

June. 2020 – May 2023
